Summary

Mostly interested in evolutionary biology, structural bioinformatics, and AI-driven approaches to decode protein-protein interactions and mechanisms of pathogenesis. Trained in Genomic Sciences, I soon got into Bioinformatics and Computational Biology. In 2013, I started a Master's degree at the University of Basel and completed my thesis at the National University of Singapore working with lipidomics of malaria. I defended my PhD thesis at the University of Heidelberg after working with Short Linear Motifs at the host-pathogen interface at EMBL Heidelberg.
In my recent independent research group at the Zhejiang University-University of Edinburgh Institute, I lead projects that bridge fundamental evolutionary questions with translational applications in disease. I am excited to collaborate with groups at the intersection of cell signaling, infection, and big data to advance both basic research and clinical outcomes.

Appointments

10/24 - current **Assistant Professor, tenure track**, Zhejiang University-University of Edinburgh Institute, Haining, China

01/26 - current **Laitong Residencial College mentor**, Zhejiang University, Haining, China

09/25 - current **ZJE Programme Co-ordination Group member**, Zhejiang University-University of Edinburgh Institute, Haining, China

05/22 - current **PhD Supervisor**, *College of Medicine and Veterinary Medicine*, University of Edinburgh, Scotland

09/21 - current **Honorary Lecturer**, *College of Medicine and Veterinary Medicine*, University of Edinburgh, Scotland

Education

10/15 - 12/19 **Ph.D. in Molecular Biology**, European Molecular Biology Laboratory / University of Heidelberg, Heidelberg, Germany
Magna cum laude.

- Advisor: Dr. Toby J. Gibson.
- Computational screening for Eukaryotic Short Linear Motifs mimicked by bacterial proteins. Five publications.
- Computational prediction of Linear Motifs at the *Plasmodium*-Host interface.

09/13 - 02/15 **Joint Master Programme in Infectious Diseases, Vaccinology and Drug Discovery**, University of Basel, Switzerland and the National University of Singapore, Singapore

- Advisors: Dr. Bruce M. Russell and Prof. Markus R. Wenk.
- Data analysis of Mass Spectrometry and Tandem Mass Spectrometry experiments to identify characteristic lipids of *Plasmodium vivax*-infected human reticulocytes. Thesis.
- Bioinformatics analyses to study receptor-ligand interactions during *Plasmodium vivax* reticulocyte infection. One publication.

08/07 - 06/11 **B.Sc. in Genomics Sciences**, National Autonomous University of Mexico, Cuernavaca, Mexico
With honours.

Professional Experience

10/24 - current **Assistant Professor**, Zhejiang University-University of Edinburgh Institute, Haining, China

05/20 - 09/24 **Lecturer**, *Biomedical Informatics bachelor's programme*, Zhejiang University-University of Edinburgh Institute, Haining, China

10/15 - 01/20 **PhD Student / Bridging Postdoctoral Fellow**, European Molecular Biology Laboratory, Heidelgerg, Germany

10/12 - 07/13 **Research Assistant**, National Institute of Public Health, Cuernavaca, Mexico

- Advisor: Dr. Jesus Martinez-Barnetche.
- Bioinformatics analysis of high-throughput sequencing data from human and murine lymphocyte antigen receptors challenged with inactivated viruses or bacterial pathogens, respectively. Three publications.

01/12 - 09/12 **Bioinformatics Consultant**, Winter Genomics (http://www.wintergenomics.com), Cuernavaca, Mexico

- Advisor: Dr. Enrique Morett.
- Genome assembly, annotation and structural variation analysis of two *Babesia* species under two growth conditions. Bioinformatics analysis service at the Winter Genomics start-up.

Scientific Publications

* Contributed equally.

- Wang, H., Zhang, J., Zhang, N., Ji Y., Hong, X, **Sámano-Sánchez, H.**, Xu, F., Han, Y., Xiong, X., Welburn, S.C., Schulze, H., Bachmann, T.T., Ge, Y., Scharf, D.H. Awards and Scholarships

- Zhejiang University Teaching Achievement Award (2025).
- Second prize in the Teaching Competition for young faculty of Zhejiang University-University of Edinburgh Institute (2022).

Talks and Posters

Invited talks

- Institute seminar at the Biomedical Research Institute, National Autonomous University of Mexico, CDMX, Mexico, 2026.
- Talk for the BioLinkX seminar series, Zhejiang University Student Bioinformatics Association, Hangzhou, China, 2023.
- Talk to the Parasitology Unit of the Center for Infectious Diseases, Heidelberg University Hospital, Heidelberg, Germany, 2019.
- Institute seminar at the Biotechnology Research Institute (IIB), National University of San Martin (UNSAM), Buenos Aires, Argentina, 2017.

Selected talks

- Cold Spring Harbor Asia Conference: Bacterial Infection and Host Defense, Suzhou, China, 2019.
- VIII Argentinian Bioinformatics and Computational Biology Congress, Posadas, Argentina, 2017.
- 5th International Conference of Research on *Plasmodium vivax* Malaria, Bali, Indonesia, 2015.

Poster presentations

- BioMalPar XV: Biology and Pathology of the Malaria Parasite, Heidelberg, Germany, 2019.
- EMBO Workshop on Molecular advances and parasite strategies in host infection, Les Embiez Island, France, 2018.
- EMBO Conference on Hijacking host signalling and epigenetic mimicry during infections, Paris, France, 2017.
- 2nd Interdisciplinary signaling workshop, Visegrad, Hungary, 2017.
- The modularity of signaling proteins and networks, Seefeld, Austria, 2016.

Teaching

Mentor

- PhD supervisor (three students), dual degree ZJU-UoE Integrative Biomedical Sciences programme, currently.
- PhD co-supervisor (four students), University of Edinburgh Biomedical Sciences programme, 2021-2026.
- PhD co-supervisor (two students), dual degree ZJU-UoE Integrative Biomedical Sciences programme, 2021-2026.
- Master thesis supervisor (one student), University of Edinburgh Biomedical Sciences programme, 2023.

Course Organizer

- Biomedical Informatics 3 (BMI3), Biomedical Informatics Programme, Zhejiang University-University of Edinburgh Institute, China, 2023 to 2025. This is a core course on algorithm design.

- Integrative Biomedical Sciences 3 (IBMS3), Biomedical Informatics and Biomedical Sciences Programmes, Zhejiang University-University of Edinburgh Institute, China, 2022. This is a core course on career development and experimental design.
- Bioinformatics Tools for Protein Structure, Disorder and Interaction Analysis, National University of San Martin, Buenos Aires, Argentina, 2017.

Lecturer

- Advanced Mathematics 1 (AM1), Introduction to Biomedical Informatics 1 (IBI1), Applied Data Sciences 2 (ADS2), Genomics and Proteomics 2 (GP2), Infection 3 (IN3), Computational Biology and Systems Biology 3 (CBSB3), Computational Modelling and Machine Learning (CMML3), and Integrative Biomedical Sciences 4 (IBMS4) courses of the Biomedical Informatics and Biomedical Sciences Programmes, Zhejiang University-University of Edinburgh Institute, China, 2020-2026.
- Biomedical Disorders 1 and 2 courses of the Integrative Biomedical Sciences PhD programme, Zhejiang University-University of Edinburgh Institute, China, 2021-2026.
- Biomedical Frontiers course of the Artificial Intelligence and Digital Health MSc. programme, Zhejiang University, China, 2023.
- Basic Discrete Mathematics. Zhejiang University-University of Illinois Urbana-Champaign (ZJU-UIUC) Institute, China, 2024.

Skills and Interests

Languages	Spanish (native), English (advanced), French (basic), Chinese (entry level)
Research interests	Host-Pathogen interactions, Evolution, Protein Modeling, Algorithm development
